

AALS COMMITTEE ON CURRICULUM

SURVEY OF INNOVATIONS IN LAW SCHOOL CURRICULA

The AALS has decided to focus on the issue of curriculum reform in American Law Schools, and would like to set up a process that enables law schools to share information about what is being done, help each other develop new initiatives, and generally catalyze the effort to bring law teaching into the 21st century. The first step in this process is a survey of current curriculum reform efforts. We understand that surveys come thick and fast these days, but we promise that this is not an effort to collect information that will then sit on someone's shelf, or in someone's hard drive. First, you'll receive information in return, information about new ideas and implementation strategies that other law schools have developed. Second, we'll use the results of the survey to design various settings where law school faculty and administrators can come together to share ideas and develop plans about reforming the law school curriculum.

The following questions are designed to be answered by brief statements, sometimes one or two words, sometimes one or two sentences. We would be delighted if you want to attach a longer description of any program or plan that you regard as particularly worth sharing. In addition, feel free to attach documents you've already prepared for other purposes.
