

Pre-Legal Education and Admission to Law School Section Newsletter

December | 2023

As we close out the 2023 calendar year, let us all take a moment to reflect on the changes as we continue to work towards the central mission of this section. Through the communication of ideas, the promotion of education prior to law school, and the assistance provided during pre-law advising and the admissions process, we hope to continue to build a representative and robust legal community. It is with great pride we welcome new leadership and a new committee to guide next year's section!

~ 2023 PLEALS Section Executive Board
