

Spring 2018 Interprofessional Policy Initiative

Goal: To develop a better understanding of how different disciplines view and address a population health related issue through public policy

Objectives:

- Identify stakeholders and potential solutions to a current bill
- Discuss differences in the views and solutions posed by various professional disciplines
- Develop an understanding of other discipline roles and ethical codes

All students have been enrolled in the Blackboard Course where materials and group activities will be posted

Preparation for IPE Policy discussion (prior to 2/23/18)

- Review posted materials
- Complete the RIPLS assessment
 - Bring completed assessment to class on February 23, 2018
 - You will turn this in at the start of the activity
- Review proposed bill
- Prepare 1-2 page outline addressing the following issues related to the legislation:
 - Define the problem that the legislation is attempting to address
 - Identify stakeholders involved in the proposed legislation
 - What does the solution involve?
 - What roles/responsibilities/ethics of your profession guide your decision?
 - What position (support, support with amendments, oppose) would you take on the bill and why?

On February 23, 2018 you will participate in a guided discussion of your outline with students from the Schools of Law, Nursing, and Social Work. The class will take place from 11:00am - 2:00pm at the Student Center Room 351. Lunch will be provided.
